

SAMUEL SETARGE

Full-stack Developer

setarigesamuel@gmail.com • +251944867635 • Addis Ababa, Ethiopia • [Portfolio](#) | [Linkedin](#) | [Github](#)

PROFESSIONAL SUMMARY

Full-Stack Web Developer with 2+ years of hands-on experience building modern, scalable web applications and secure RESTful APIs. Strong experience with the MERN stack (MongoDB, Express.js, React.js, Node.js), complemented by C# and PHP development. Skilled in designing responsive user interfaces, authentication and authorization systems, database-driven applications, REST API integration, and deployment using Vercel and Render. Focused on secure, maintainable code, practical software architecture, and continuous learning.

PROJECT EXPERIENCE

Blood Donation & Bank Management System • [React.js](#) • [Node.js](#) • [Express.js](#) • [MongoDB](#) • [Bootstrap](#) • [JavaScript](#)

- Designed a secure blood donation management platform connecting donor, hospital, and administrative workflows.
- Built donor registration and authentication with role-based access and protected application areas.
- Implemented hospital blood-request management and administrative dashboard functionality.
- Created a responsive interface for desktop and mobile users.
- Integrated RESTful APIs for real-time application data management.
- Integrated an AI-powered assistant supporting text and voice interaction for user questions.

WERQAMA SACCO — Savings & Loan Management System • [React.js](#) • [Node.js](#) • [Express.js](#) • [MongoDB](#) • [Bootstrap](#) • [Tailwind CSS](#) • [JavaScript](#)

- Built a full-stack SACCO platform for member registration, profiles, savings, transactions, and loan workflows.
- Implemented loan application and approval processes with secure authentication using JWT.
- Developed dashboard analytics and financial reporting views for administrative users.
- Implemented CRUD operations and structured MongoDB data management.
- Created an attractive, responsive user interface for desktop and mobile experiences.

TECHNICAL SKILLS

Frontend	JavaScript / TypeScript, React, Tailwind CSS, HTML5 / CSS3
Backend	Node.js, Express, C#, RESTful APIs,
Databases	PostgreSQL, MySQL, MongoDB
DevOps	Git & GitHub, Render, Vercel
Architecture	Clean Architecture, SOLID, CQRS, Domain-Driven Design
Security	JWT, RBAC, Input Validation, Secure Coding Practices

CERTIFICATIONS & PROGRAMS

- Efuye Gela Cultural XR Hackathon — June 2024 [view](#)
- Udacity Programming Fundamentals — September 2025[view](#)
- System Development on Information Network Security Administration (INSA)

EDUCATION

Kibur College Jemo Michale	Bachelor of Science in Computer Science Graduated 2025
